TA-50 Gear Storage Locker

TA-50 Gear Storage Locker

Store Your Gear with Over 45 ft³ of Storage Space.

The TA-50 Gear Storage Locker is the ultimate gear storage solution. It has plenty of unobstructed room to store whatever you need – uniforms, weapons, gear bags, ammunition, boxes and more.

The storage applications are endless. Perforated gates and sides are ideal for ventilation and visual inspection. Customize your TA-50 Gear Storage Locker with our standard component offering. Check out the back page for more information.

Features

- Fully welded heavy-gauge steel body and gates
- Integrated Padlock hasp
- 3-point lock mechanism

TA-50 Gear Storage Locker Construction

Our TA-50 Gear Storage Lockers are the strongest, most durable TA-50 Gear Storage Locker available. It's all because of our manufacturing and construction methods:

- All-welded, heavy gauge steel construction
- Perforated gates and side panels
- Four universal back panel columns accommodate Dasco components
- This allows for a fully customizable interior using shelves, storage boxes, hooks, weapon components and more
- Built-in levelling feet
- Black Sandtex powder-coat finish

Two Available Sizes:

78”H x 42”W x 24”D
(1981mm H x 1066mm W x 610mm D)

78”H x 36”W x 24”D
(1981mm H x 914mm W x 610mm D)

Two-Tier TA-50 Gear Storage Locker

The Two-Tier TA-50 Gear Storage Locker has the same great features with two individual locking compartments in the same footprint as the standard TA-50 Gear Storage Locker. They are great for team storage applications, individual lockers or separating items from one another in storage.

Ventilation

Store your damp or wet gear in our full-ventilated TA-50 Gear Storage Lockers. The perforated gates allow for plenty of ventilation which ensures your valuable gear doesn't get musty and moldy. TA-50 Gear Storage Lockers are frequently used for wet suits and scuba gear.

Visual Inspection

The perforated gates also allow for quick and easy visual inspection. You can clearly see the contents of the locker and ensure nothing is being stored that shouldn't be. This is popular for police and military applications.

Versatility

TA-50 Gear Storage Lockers are incredibly versatile. TA-50 Gear Storage Lockers have been used for everything from elite tactical storage to hotel supplies. This is due to the various configurations you can create with your TA-50 Gear Storage Locker. See some of the standard components on the back page.

Two Available Sizes:

78" H x 42" W x 24" D
[1981mm H x 1066mm W x 610mm D]

78" H x 36" W x 24" D
[1981mm H x 914mm W x 610mm D]

Usable Compartment Space (each):

37.5" H x 42" W x 21.5" D
[953mm H x 1066mm W x 546mm D]

37.5" H x 36" W x 21.5" D
[953mm H x 914mm W x 546mm D]

TA-50 Gear Storage Locker Components

Hanger Bar

The hanger bar is the perfect component for uniform or clothing storage. The durable bar stretches all the way across the rack and is very strong – it won't bend or sag.

Coat Hooks

Coat hooks provide a great hanging option in a versatile cabinet. Not just for coats, properly store your smaller gear like helmets, gloves or facemasks on a designated hook.

Additional Shelving

Compartmentalize your locker with additional shelves. The steel shelves are incredibly strong and have a 200LB capacity - perfect for gear bags, hard cased, boxes and even towels and bedding.

Universal Back Panel Columns

Our universal back panel columns are standard on every TA-50 Gear Storage Locker. You have four columns total to customize with Dasco Storage components. We offer 100's of components to help you store everything from weapons to first aid equipment.
